## **Introduction**

The curriculum is all the planned activities that we organise in order to promote learning, personal growth and development. It includes not only the formal requirements of the National Curriculum, but also the range of extra-curricular activities that the school organises to enrich the experiences of children. It also includes the 'hidden curriculum,' or what the children learn from the way they are treated and are expected to behave. We aim to teach children how to grow into positive, responsible citizens, who can work and co-operate with others while 'taking care of their own learning,' This is so that they can achieve their true potential. We believe in a broad curriculum encompassing the Fundamental British Values enabling the pupils to become well rounded individuals.

## **Values**

Our school curriculum is underpinned by our mission statement, our key aims and our Core Values (Appendices 1 and 2). The curriculum is the means by which the school achieves its objective of educating children in the knowledge, skills and understanding that they need in order to lead fulfilling lives.

At Aldenham we believe very strongly in offering breadth within our curriculum, so that the all-round talents of each individual child may be developed. This involves promoting the academic, creative, and sporting facets of school life, as well as fostering children's natural curiosity, in order to empower them with a life- long love of learning.

At Aldenham Prep School:

- We value the way in which are children are unique, and our curriculum promotes respect for the views of each individual child, as well as for people of all cultures. We value the spiritual, moral, social and cultural development of each person, as well as their intellectual and physical growth.
- We value the importance of each person in our community. We organise our curriculum so that we promote co-operation and understanding between all members of our community.
- We respect each other for who they are and we treat them with fairness and honesty. We aim to enable each person to be successful, and we provide equal opportunities for all.
- We value our environment, and we aim, through our curriculum, to teach respect for our world and how we should care for it for future generations as well as our own.

## **Aims and objectives**

The aims of our school curriculum are:

- to enable all children to learn and develop to the best of their ability;
- to promote a positive attitude towards learning, so that children enjoy coming to school, and acquire a solid basis for lifelong learning;
- to teach children the basic skills of literacy, numeracy, computing & coding
- to teach children about their developing world, including how the environment, culture and society have changed over time;
- to enable children to be happy, responsible and co-operative members of our community;
- to teach children to have an awareness of their own spiritual development, and to understand right from wrong

## **Protected Characteristics:**

There are 9 protected characteristics and Aldenham Prep encourages respect for other people in accordance with the Equality Act 2010

The 9 Protected Characteristics are:

- age
- disability
- gender reassignment
- marriage and civil partnership
- pregnancy and maternity
- race
- religion or belief
- sex
- sexual orientation

Rather than teaching all the protected characteristics in every year group, we ensure that our children are given opportunities to develop age-appropriate knowledge and understanding through a well-planned and delivered curriculum. This takes place especially in RSE/ PSHE lessons and is further supported by displays and events.

## **Organisation and planning for EYFS, KS 1 & 2**

We plan our curriculum in three phases:

### **Long Term**

Initially a curriculum map or long-term plan is drawn up. This indicates the broad learning intentions for each term and establishes which topics are to be taught to which groups of children. We review our long term plans on an annual basis. (See Appendix 2)

### **Medium Term**

We use the national schemes of work as a basis for much of our medium-term planning. In EYFS, activities are planned to support the areas of learning. In our medium-term plans, we give clear guidance on the topics to be taught week by week. We store all of our medium-term plans stored on the intra-net, so that they can be easily updated and reviewed. (See Appendix 3)

### **Short Term**

Our short-term plans are those that our teachers write or communicate on a weekly or daily basis. We use these to set out the learning objectives/ WALT for each session, and to identify which resources and activities we are going to use in the lesson. Prompts for differentiation and assessment are included at this stage of planning, as well as relevant cross-curricular links. (See Appendix 4)

A variety of AfL techniques are embedded in all areas of the curriculum as are use of success criterias. We continue to develop our evidence of assessment and progress.

In EYFS, there is a combination of adult led and child initiated learning across the week that support the areas of learning.

## **Children who require Learning Support**

We provide a broad and balanced curriculum which is designed to provide access and opportunity for all children who attend the School. We adapt the curriculum to meet the needs of individual children. When planning, teachers set suitable learning challenges and respond to children's diverse learning needs. Some children have barriers to learning that mean they have special needs and require particular action by the School.

These requirements are likely to arise as a consequence of a child having special educational needs. Such children may need additional or different help from that given to other children of the same age. Class Teachers/Nursery Teacher make an initial assessment and, in most instances, can provide resources and educational opportunities which meet the child's requirements, within the normal class organisation. These provisions support individuals or groups of children and thus enable them to participate effectively in curriculum and assessment activities.

Children may have special educational needs either throughout or at any time during their school career. This policy ensures that curriculum planning and assessment for children with special educational needs and disabilities (SEND) takes account of the type and extent of the difficulty experienced by the child. The SEND support takes the form of a four-part cycle through which earlier decisions and actions are revisited, refined, and revised with a growing understanding of the pupil's needs and of what supports the pupil in making good progress and securing good outcomes. This is known as the Graduated Approach. The flow diagram below illustrates this process.

If a child's need is more severe, we will involve the Head of Learning Support and, after consultation with parents, one-to-one specialist Maths and English support can be made available. Short-term targets are set and shared with the child and their parents; these are reviewed at regular intervals to monitor progress.

Support from one or more outside professionals may be sought with parents' consent e.g., Educational Psychologist, Speech and Language Therapist, Occupational Therapist etc.

## Homework

The school expects homework to be set as appropriate. As guidance we expect pupils to spend the following times on homework:

Year Group	Homework	Holiday Homework
Nursery		
Reception	Individual reading materials are changed twice a week; reading every day.	Reading task
Year 1	Reading every day; Spellings set for weekly test; A 20-minute Literacy task and a 20 minute Maths task once a week.	Reading task

Year 6	Reading, spellings and times tables practice; two 30-40 minute Literacy tasks and two 30-40 minute Maths tasks a week. Occasional topic homework. Planet BOFA in Christmas Term.	11+ practice papers until Christmas; Reading task after Christmas.

### **Stretch and Challenge**

We are an inclusive school and provide stretch and challenge in all subjects, and indeed all areas of school life. These opportunities exist for all children. Work is differentiated and AFL techniques used to enable children to achieve highly and to realise success. Through AFL, on-going assessment, summative assessments and pupil progress meetings we identify our more able learners across the curriculum and ensure the teaching and learning meets their needs.

### **The role of the Subject Leads**

We aim for the subject leads to:

- contribute to the whole School Development Plan;
- provide a strategic lead and direction for the subject;
- support and offer advice to colleagues on issues related to the subject;
- monitor assessment and pupil progress in that subject area;
- provide efficient resource management for the subject.

It is the role of each subject lead to keep up to date with developments in their subject, at both national and local level. They review the way the subject is taught in the school and plan for improvement. This development planning links to whole-school SDP objectives. Each subject lead reviews the curriculum plans for their subject and ensures that progression is planned into Schemes of Work. Subject leads are also working towards keeping a portfolio of children's work, which will be used to show the achievements of children within each Year Group and to give examples of expectations of attainment.

Subject leads are:

- Given a termly/annual budget for the subject
- Given staff meeting time
- Given time in some staff meetings to monitor their subject
- Liaise with HoD of senior school and Subject Lead at St Hilda's regularly

### **Concerns and Complaints**

Parents who have concerns about any aspect of the curriculum should discuss these in the first

instance with the pupil's Class Teacher or Key Stage Lead and then with the Deputy Head. If the issue is not resolved parents should make an official complaint in writing to the Head of Prep. The school has a Complaints Procedure in place, which can be obtained from the Head of Prep

### **Monitoring and Review**

All teaching staff are responsible for monitoring the way the school curriculum is implemented. As part of the subject leadership programme each subject area is monitored in a cycle of review and development. The Curriculum Policy is reviewed annually.
